THREE−POOL BRACKET RESEEDING TALLY

Event: _____ Date: _____

Each pool retains its original overall seed slots. Award those slots by final pool finish.

1. Rank teams within each pool by W−L record. Resolve tied records within that pool (WFDF 206.03).
2. Sort that pool's original overall seeds, lowest number first. Winner earns the best slot, runner−up the next, etc.
3. Transfer earned seeds to the double−elimination bracket. Keep original seeds unchanged. No cross−pool record comparisons.

Pool ID	Team / players	Original seed	W	L	Pool finish	Earned bracket seed	Notes / tiebreak
A1							
A2							
A3							
A4							
A5							
B1							
B2							
B3							
B4							
B5							
C1							
C2							
C3							
C4							
C5							

Cross out A5, B5 or C5 for four−team pools. Check that earned seeds reuse every original seed exactly once.

Example: a pool with original seeds 1, 6, 7, 12 awards those slots to its 1st, 2nd, 3rd and 4th finishers, respectively.
